## Essential Box Exclusives

18 cards

MWJ02

The Essential (J) boxes aren't reprints — Essential 2 (MWK-J002) has its own cards, incl. characters found nowhere else in the run (Wolverine, Deadpool, Kang, Odin...). Per-card rarities and the Essential 1 (MWK-J001) list are still being compiled.

**How to use:** Cards are grouped by **series** (the actual set), rarest first, then by promo line. Every number in a series is here regardless of which box you pull it from — tick each rarity version you own. A “?” chip means a Series 5 rarity is our best estimate.

**5-yuan vs 2-yuan boxes:** Series 1 & 2 each came in two products from the *same* set — the 5-yuan **Legendary** box (MWK-A0xx) pulls the whole series including chase; the cheaper 2-yuan **Deluxe** box (MWK-B0xx) tops out around SGR. One list covers both. Series 3–5 only came in the Legendary box. The **LR** cards in Series 1 are starter-kit “black pack” exclusives that share their base number.

**About Series 5 (MW05):** every card number and character is confirmed; the ~20 rarities we could verify from real cards are marked exact, the rest are **community-estimated** from Kayou's number-banding and refined against known pulls. **Sources:** [Capsule Corp Gear](#) · [gacbinder.com](#) · [coleka.com](#) · [TCDB](#) · the Trading Card Archives card database. © Trading Card Archives — free to print & share.
